Data Science Master Virtual Internship

Step :1 Click on the link below and select the **Sign In** option as indicated.
Link: <https://academy.rapidminer.com>

Step:2 Click on the **Sing Up** Option.

The image shows the RapidMiner login and sign-up interface. At the top, the RapidMiner logo is displayed, followed by the text "An ALT AIR Company". Below the logo, there are two buttons: "Log In" and "Sign Up". A blue arrow points from the "Log In" button to the "Sign Up" button, which is highlighted with a red rectangular border. Below the buttons, there is a section for signing in with Altair One, followed by the word "or". Below this, there are two input fields: one for email (containing "yours@example.com") and one for password (containing "your password"). Below the password field, there is a link that says "Don't remember your password?". At the bottom of the form, there is a large teal button labeled "LOG IN >".

Step:3 click on Educational purposes & In role select as Student as seen below & enter your Details and **Click on Register** button

The screenshot shows the registration form for Rapidminer. A blue arrow points to the "Educational purposes" radio button, which is highlighted with a red box. Another blue arrow points to the "Register" button, which is also highlighted with a red box. A third blue arrow points to the "Student" option in the "Role" dropdown menu, which is highlighted with a red box. The form includes fields for "First name:", "Last name:", "Country:", "University:", "Email address:", "Create a password:", and "Confirm your password:". The "Role:" dropdown menu is open, showing options: "Student", "Instructor", and "Researcher (Unfunded)". The "Student" option is selected and highlighted with a blue bar. Below the "Register" button, there is a link: "Already have an account? [Sign in here.](#)".

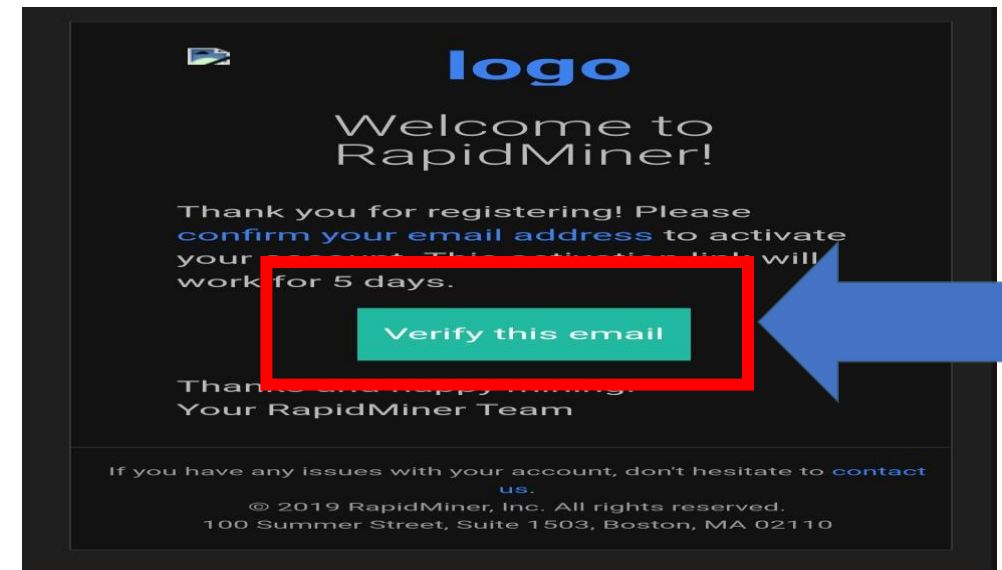

- Step:4**
- 1- A confirmation email will receive to your register email id as show below.
 - 2- Then click on verify this email.
 - 3- Then it show welcome to your account portal

We've sent a confirmation email to susilpatro90@gmail.com. Click on the confirmation link in the email to activate your account.

If you can't find an email from inquiries@rapidminer.com, please check your Spam and Junk mails.

You can also [resend the verification email](#).

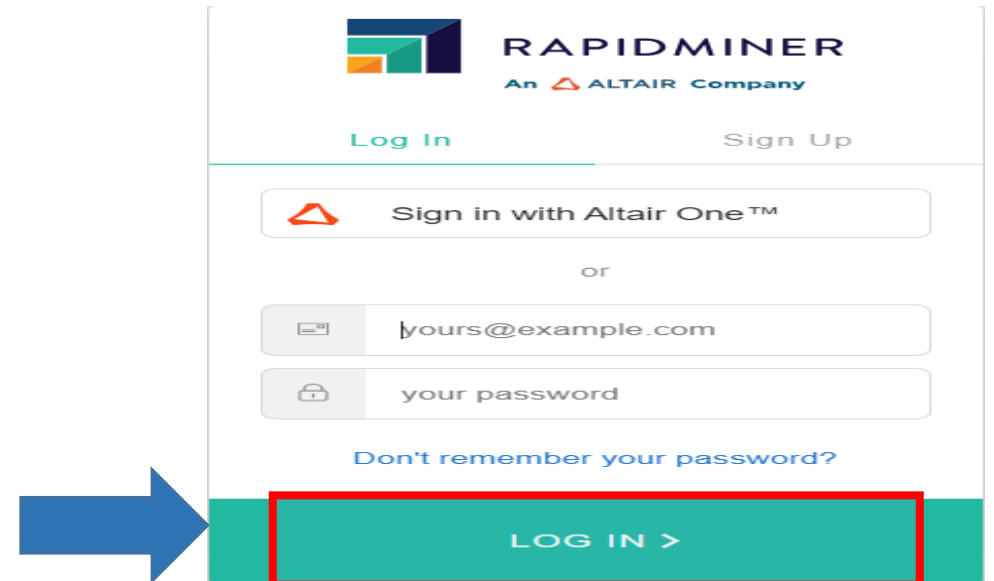

Step:5 1- Then click on this link again in new window.

Link: <https://academy.rapidminer.com>

2- Click to Sign in

3- Enter your email id & password & Click to Log in

Step:6 Then enter your first & last name & click continue

RAPIDMINER | An  ALTAIR Company

Before proceeding, please fill out the following information.

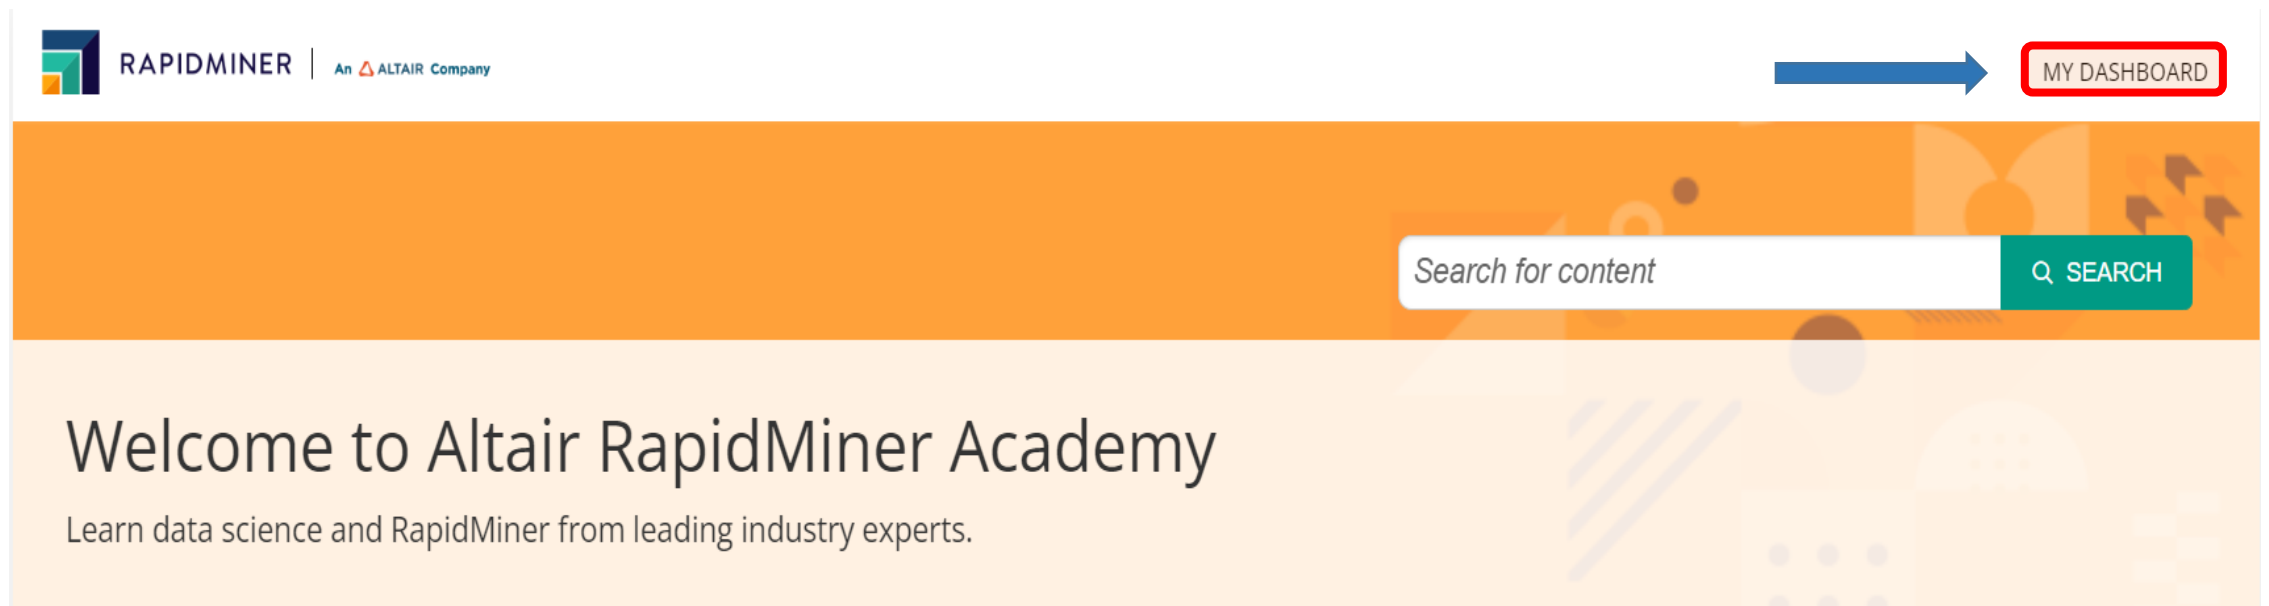

First Name

Last Name

Continue

A blue arrow points from the input fields to the Continue button.

Step:7 Then click on my dashboard as show below.

Step:8 Click Data Science Professional with Rapid Miner
Then click start learning path as show below

Data Science Professional with RapidMiner

The Professional level path covers the full breath of knowledge required to succeed with Data Science for beginners and intermediate users.

Start Learning Path

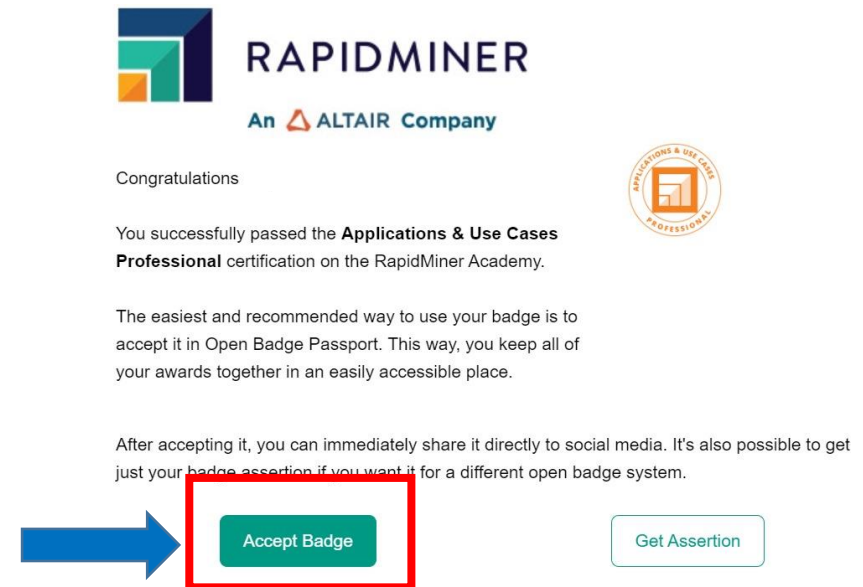

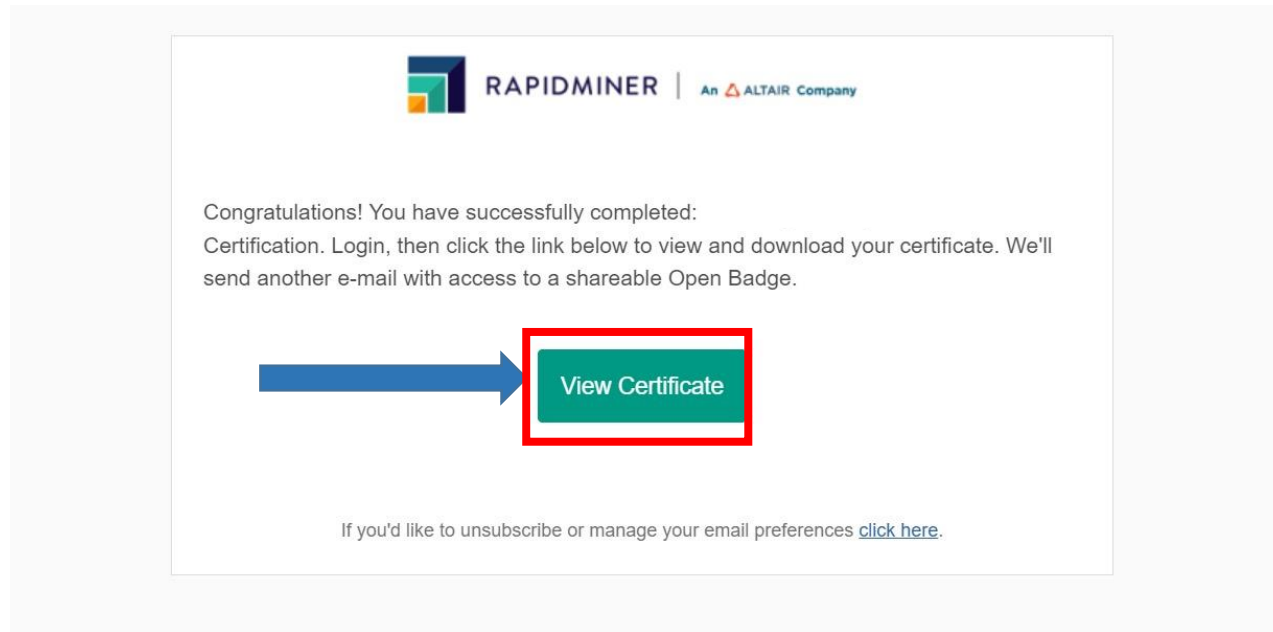

Step:9 Click on open as shown below & complete all the task one by one.

The screenshot displays the RapidMiner interface with a dark blue background. On the left, the 'Applications & Use Cases Professional' course is listed with a description: 'AI, machine learning and data science can become a competitive advantage and so everyone is interested to see if they can be applied on their problems. Identifying good problems and mapping them to machine learning types is the key step here and since that also requires some general understanding of the frequent terms used, we cover and introduce those basics as well.' Below the description is a green 'Open' button, which is highlighted by a red arrow labeled '1'. At the bottom left, there is a 'Certification Exam' section with a circular logo that reads 'APPLICATIONS & USE CASES PROFESSIONAL'. On the right, the 'Applications & Use Cases Professional' course is also listed, with a green 'Open' button highlighted by a red arrow labeled '2'. Below this, the 'Certification Exam' section is shown with a description: 'Take a quiz to verify your knowledge and understanding of Applications and Use Cases in RapidMiner Studio and AI Hub at the Professional level.' and a green 'Open' button.

Step:17 Click on open as shown below & complete all the tasks one by one.

The screenshot displays a two-panel interface for the 'Data Engineering Master' course. The left panel contains the course title, a description under the heading 'Course', and a 'Certification Exam' section with a circular logo. The right panel features a 'RAPIDMINER' logo, the course title, and a 'Data Engineering Master Certification' section with a description and a circular logo. Two red arrows with yellow numbered boxes point to 'Open' buttons: arrow 1 points to the 'Open' button in the 'Course' section, and arrow 2 points to the 'Open' button in the 'Certification Exam' section. Both buttons are highlighted with red rectangular boxes.

1

Data Engineering Master

Course

This course is about advanced methods of handling, preparing and enriching data. It addresses data cleansing but also processing of unstructured text data. Commonly known methods like loops and branches are discussed but also the use of variables, error handling and different options to use scripting.

 Login with Google

Step:27 You have to choose the email id that is registered with Rapid Miner if you choose to sign in with Google.

Step:28 Click on I Accept then & click on login.

TERMS OF USE

Updated 04.11.2022

General information about the use of Open Badge Passport service

The Open Badge Passport service (later referred to as Service) is offered by Open Badge Factory Oy (later referred to as Service Provider). The Service delivered by the Service Provider consist of a cloud based platform, where Open Badges earners can receive, share, manage and publish their badges. The terms of Use apply to the users of the Service (later referred to as User(s)). User refers to 2 user levels: 1) Users, who use the service for personal purposes 2) customer organization, which has it's own environment in the Service.

By using the Open Badge Passport service the User accepts these Terms of Use.

Access to the Service and restrictions

By creating a User account in the Service, the User assures the Service Provider that he/she is at least 13 years old and if under 18 years, authorized by his/her parents.

Subject to the User's acceptance of and continuing compliance with these Terms of Use, the Service Provider grants to the User a limited, non-exclusive, non-transferable, revocable license to use the Service solely for the purpose of receiving, managing, displaying, sharing and publishing Open Badges. The User agrees not to use the Service for any other purpose. The Service shall not be used in any other manner than via specified interfaces and according to given instructions and these Terms of Use provided by the Service Provider. Except as specifically allowed in these Terms of Use, the User is not entitled to use, copy, reproduce, republish, store, modify, transfer, display, encode, transmit, distribute, lease, license, sell, rent, lend, convey, upload or otherwise transfer, assign or make publicly available its User account, the Service, a part thereof or the material contained therein in any way. The User is not entitled to adapt, translate, reverse engineer, decompile, disassemble or attempt to discover the source code, underlying ideas, algorithms, methods, techniques, file formats or programming interfaces of, or create derivative works from the Service or any part thereof, except to the extent permitted under the applicable law. The User is not entitled to remove, modify, hide, obscure, disable or modify any copyright, trademark or other proprietary rights notices, marks, labels or any other branding elements contained on or within the Service, falsify or delete any author attributions, legal notices or other labels of the origin or source of the material, or misrepresent the source of ownership of the Service. The license of the User terminates immediately if it attempts to use any technical protection measures used in connection with the Service or if the User otherwise uses the Service in
